Dr. Rabold made a motion to approve both Entrance Examiner Reports; Dr. Fields second.

A vote was taken:

Aye: Dr. Fields; Mrs. Motylinski; Dr. Rabold; Dr. Cole; Dr. Zimmerman

Nay: None

Abstain: None

The motion passed.**EXECUTIVE DIRECTOR'S REPORT**

Dr. Ross began by presenting the following quarterly reports:

- Budget Report—Expenditure and Revenue Detail FY22 Q4 and FY23 Q1
- Enforcement Report/Investigation Summary Data FY22 Q4 and FY23 Q1
- Licensing/Exam Detail FY22 Q4 and FY23 Q1

Dr. Ross acknowledged the daily work and dedication of employees Chiquana Hancock and Denitra Hairston, without whom candidate licensure would not be possible. He then called attention to his Director's Summary Letter submitted with the Board's biennial budget request for FY24-25 Biennial Budget Request. He also provided an update on HB509 as passed by the House, which would amend the School Psychologist renewal and CE schedules in law. He continues to monitor the bill with other stakeholders (namely OSPA) to clarify the impact and encourage caution when reducing the CE requirements of license holders.

Following a recap of the 2022 Biennial License Renewal process, draft rules were presented for consideration in re: "Safe Haven" processes for license holders to seek confidential services and for the Board to utilize evaluative/monitor services by the OPHP. The draft rules presented were:

Proposed New Rule:

Ohio Administrative Code Rule 4732-17-04
Impaired practitioner rules and safe haven program.

(A) Pursuant to division (E) of section 4732.17 of the Revised Code, the board may compel license holders and applicants to submit to physical or mental examination only following issuance of a notice of opportunity for hearing alleging violation of division (A)(7) of section 4732.17 of the Revised Code. If the board receives information by the filing of a complaint or upon its own information that alleges an individual's ability to practice has fallen below the acceptable and prevailing standards of care because of impairment due to mental, emotional, physiological, pharmacological, or alcohol/substance abuse conditions, the board may order the individual to submit to a mental or physical examination at the individual's expense conducted by a designee of the board for the purpose of determining if there is an impairment that is posing a threat to the individual's ability to render safe and competent psychological or school psychological services.

(B) Failure of the individual to submit to a mental or physical examination ordered by the board pursuant to division (E) of section 4732.17 of the Revised Code constitutes an admission of the allegations against the individual license holder unless the failure is due to circumstances beyond the individual's control.

(C) The board at its discretion may:

- (1) Contract with providers of impaired treatment programs.
- (2) Receive and evaluate reports of suspected impairment from any source.
- (3) Intervene in cases of verified impairment.
- (4) Monitor treatment and rehabilitation of the impairment.
- (5) Provide post-treatment monitoring and support.
- (6) Provide other functions as necessary to carry out the provisions of this rule.
- (7) Make amendments, if necessary, to the treatment program's findings.

(D) The board-approved treatment program shall:

- (1) Receive relevant information from the board office and other sources regarding the potential impairment.
- (2) Report in a timely fashion any impaired license holder:
 - (a) Who refuses to submit to an evaluation.
 - (b) Who refuses to submit to treatment/rehabilitation.
 - (c) Whose impairment is not substantially alleviated through treatment.
 - (d) Who in the opinion of the evaluators is unable to practice with reasonable skill and safety.
- (3) Provide confidentiality of non-public information of the review process.
- (4) Provide an initial report of the nature, severity, and progress of the impairment.
- (5) Provide periodic reports, at a rate determined by the board concerning the license holder's progress.
- (6) Provide a final report including the treatment outcome and a finding as to the license holder's fitness to practice.
- (7) Follow any requirements outlined in a formal agreement the license holder, or applicant for licensure has entered into with the board.

(E) Pursuant to sections 4732.06 and 4732.173 of the Revised Code, as part of the board's colleague assistance program, the board hereby establishes a confidential, non-disciplinary program for the evaluation and treatment of eligible individuals who need assistance with a potential or existing impairment due to abuse of/or dependency on alcohol or other substances or other health-related conditions. This program shall be known as the board's safe haven program.

- (1) The board shall contract with one entity, hereafter referred to as the monitoring organization, to conduct the safe haven program. The monitoring organization shall

determine the eligibility for participation in the safe haven program and provide associated services to eligible individuals.

(2) Eligible individuals shall include license holders of the board as well as applicants who have applied for a license or registration from the board.

(3) Services provided by the monitoring organization include but are not limited to the following:

(a) Screening and/or evaluation for impairment due to mental, emotional, physiological, pharmacological, or alcohol/substance abuse conditions.

(b) Referral to treatment providers approved by the monitoring organization for the purpose of evaluating and/or treating impairment.

(c) Establishment of individualized monitoring criteria for a duration determined by the monitoring organization to ensure the continuing care and recovery from impairment.

(d) Case management.

(4) The monitoring organization that contracts with the board to conduct the safe haven program may receive referrals from any of the following:

(a) Applicants, license holders or regulated persons.

(b) Other individuals.

(c) Employers.

(d) Professional societies and associations.

(e) Health care personnel and treatment providers.

(f) Other entities and organizations.

(g) The board.

(5) To participate in the safe haven program, an eligible individual must enter into an agreement with the monitoring organization to seek assistance for a potential or existing impairment due to mental, emotional, physiological, pharmacological or substance abuse conditions of or dependency on alcohol or other drugs or other health-related conditions. The agreement may specify but is not limited to the following:

(a) Treatment and therapy plan.

(b) Support group participation.

(c) Case management.

(d) Duration of monitoring. Relapses and other failures to comply with the terms of the agreement may result in a longer period of monitoring. As appropriate, an addendum to the agreement may be initiated by the monitoring organization.

(e) Random toxicology testing.

(f) Releases for seeking information or records related to the practitioner's impairment, including but not limited to family, peers, health care personnel, employers, and treatment providers.

(g) Grounds for dismissal from participation in the safe haven program for failure to comply with program requirements.

(h) Any required fees associated with participation in the safe have program, including but not limited to fees for toxicology testing.

(6) The board shall not institute disciplinary action based on impairment against a safe haven program participant so long as the participant enters into an agreement with the monitoring organization and complies with the same. The presence of impairment shall not excuse acts or preclude investigation or disciplinary action against a participant for other violations of Chapter 4732 of the Revised Code.

(7) The monitoring organization shall report to the board for further investigation and/or action any participant who is unwilling or unable to complete or comply with any part of the safe haven program, including evaluation, treatment, or monitoring.

(8) All information received and maintained by the monitoring organization shall be held in confidence subject to Section 2317.02 of the Revised Code and in accordance with federal law.

Amendments to other Ohio Administrative Code provisions

Ohio Administrative Code Rule 4732-17-01 | General rules of professional conduct pursuant to section 4732.17 of the Revised Code.

(C)(13) Practicing while impaired. A license holder shall not undertake or continue a professional psychological role when the judgment, competence, and/or objectivity of the license holder is impaired due to mental, emotional, physiological, pharmacological, or substance abuse conditions, unless the license holder is a participant in the board's safe haven program and the program has determined that the participant is fit to practice. If impaired judgment, competence, and/or objectivity develops after a professional role has been initiated, the license holder shall terminate the professional role in an appropriate manner, shall notify the client and/or other relevant parties of the termination in writing, and shall assist the client, supervisee, or evaluatee in obtaining appropriate services from another appropriate professional.

(J)(4) Reporting of violations to board. A license holder who has substantial reason to believe that another license holder or psychological or school psychological supervisee has committed an apparent violation of the statutes or rules of the board that has substantially harmed or is likely to substantially harm a person or organization shall so inform the board in writing, except that when

the suspected violation of the statutes or rules of the board is related solely to impairment due to mental, emotional, physiological, or pharmacological, health-related conditions, and/or abuse of or dependency on alcohol or other substances, the license holder may instead make a report to the board's safe haven program in lieu of the board. ~~However~~ **Moreover**, when the information regarding such violation is obtained in a professional relationship with a client, the license holder shall report it only with the written permission of the client. Under such circumstances the license holder shall advise the client of the name, address, and telephone number of the state board of psychology and of the client's right to file a complaint. The license holder shall make reasonable efforts to guide and/or facilitate the client in the complaint process as needed or requested by the client. Nothing in this rule shall relieve a license holder from the duty to file any report required by applicable statutes.

Dr. Fields made a motion to direct Dr. Ross to file the rules as presented; Dr. Rabold second.

A vote was taken:
